8.10**Prerequisite Skills Linked to Assessed Curriculum***Relationship between People and Physical Environment*

- explain ways in which geographic factors such as the Galveston Hurricane of 1900, the Dust Bowl, limited water resources, and alternative energy sources have affected the political, economic, and social development of Texas (7)
- identify ways in which Texans have adapted to and modified the environment and explain the positive and negative consequences of the modifications (7)
- identify and analyze ways people have adapted to the physical environment in various places and regions (6)
- describe ways people have been impacted by physical processes such as earthquakes and climate (6)
- describe how and why people have adapted to and modified their environment in the United States such as the use of human resources to meet basic needs (5)
- explain reasons why people have adapted to and modified their environment in Texas, past and present, such as the use of natural resources to meet basic needs, facilitate transportation, and enhance recreational activities (4)
- describe ways people have adapted to and modified their environment in Texas, past and present, such as timber clearing, agricultural production, wetlands drainage, energy production, and construction of dams (4)
- identify and compare how people in different communities adapt to or modify the physical environment in which they live such as deserts, mountains, wetlands, and plains (3)

Geographic Influence on History

- identify geographic factors such as location, physical features, transportation corridors and barriers, and distribution of natural resources that influence a society's political relationships (6)
- explain the geographic factors responsible for the location of economic activities in places and regions (6)

Population and Settlement Patterns

- analyze the geographic factors that influence the location of the five largest urban areas in the United States and explain their distribution (5)
- explain the geographic factors that influence patterns of settlement and the distribution of population in the United States (5)
- explain the geographic factors such as landforms and climate that influence patterns of settlement and the distribution of population in Texas, past and present (4)

Characteristics of Places and Regions

- analyze the effects of physical and human factors such as climate, weather, landforms, irrigation, transportation, and communication on major events in Texas (7)
- locate and compare places of importance in Texas in terms of physical and human characteristics such as major cities, waterways, natural and historic landmarks, political and cultural regions, and local points of interest (7)
- locate and compare the Mountains and Basins, Great Plains, North Central Plains, and Coastal Plains regions (7)

8.15**Prerequisite Skills Linked to Assessed Curriculum**

- compare the roles of public officials, including mayor, governor, and president (2)
- identify functions of governments such as establishing order, providing security, and managing conflict (2)
- identify and describe the roles of public officials in the community, state, and nation (1)
- identify the responsibilities of authority figures in the home, school, and community (1)
- identify rules and laws that establish order, provide security, and manage conflict (1)
- explain the purpose for rules and laws in the home, school, and community (1)
- explain how authority figures enforce rules (K)
- identify rules that provide order, security, and safety in the home and school (K)
- identify purposes for having rules (K)

Political and Legal Systems

- identify reasons for limiting the power of government (6)
- distinguish between national and state governments and compare their responsibilities in the U.S. federal system (5)
- identify the reasons for and describe the system of checks and balances outlined in the U.S. Constitution (5)
- identify and explain the basic functions of the three branches of government (5)
- identify examples of representative government in the American colonies, including the Mayflower Compact and the Virginia House of Burgesses (5)

Historical Documents

- compare the principles and concepts of the Texas Constitution to the U.S. Constitution, including the Texas and U.S. Bill of Rights (7)
- identify how the Texas Constitution reflects the principles of limited government, republicanism, checks and balances, federalism, separation of powers, popular sovereignty, and individual rights (7)
- explain the reasons for the creation of the Bill of Rights and its importance (5)
- explain the purposes of the U.S. Constitution as identified in the Preamble (5)
- explain the purposes, key elements, and importance of the Declaration of Independence (5)
- identify the intent, meaning, and importance of the Declaration of Independence, the U.S. Constitution, and the Bill of Rights (Celebrate Freedom Week) (4)
- identify and explain the basic functions of the three branches of government according to the Texas Constitution (4)
- identify the purposes and explain the importance of the Texas Declaration of Independence and the Texas Constitution (4)
- describe the concept of “consent of the governed” (3)
- identify the purposes of the Declaration of Independence and the U.S. Constitution, including the Bill of Rights (3)

| TEKS Knowledge and Skills Statement/ STAAR-Tested Student Expectations | STAAR Alternate 2 Essence Statement |
| <p>(8.27) Science, technology, and society. The student understands the impact of science and technology on the economic development of the United States. The student is expected to</p> <p>(A) explain the effects of technological and scientific innovations such as the steamboat, the cotton gin, the telegraph, and interchangeable parts; Readiness Standard</p> <p>(B) analyze how technological innovations changed the way goods were manufactured and distributed nationally and internationally; Supporting Standard</p> <p>(C) analyze how technological innovations brought about economic growth such as the development of the factory system and the construction of the Transcontinental Railroad. Supporting Standard</p> | <p>Recognizes the impact of scientific discoveries and technological innovation on the economic growth of the United States.</p> |
| 8.27 Prerequisite Skills Linked to Assessed Curriculum | |
| <p><i>Impact of Science and Technology on Society</i></p> <ul style="list-style-type: none"> analyze how scientific discoveries and technological innovations have resulted in an interdependence among Texas, the United States, and the world (7) evaluate the effects of scientific discoveries and technological innovations on the use of resources such as fossil fuels, water, and land (7) analyze the effects of various scientific discoveries and technological innovations on the development of Texas such as advancements in the agricultural, energy, medical, computer, and aerospace industries (7) identify examples of scientific discoveries, technological innovations, and scientists and inventors that have shaped the world (6) explain how scientific discoveries and technological innovations in the fields of medicine, communication, and transportation have benefited individuals and society in the United States (5) identify how scientific discoveries, technological innovations, and the rapid growth of technology industries have advanced the economic development of the United States, including the transcontinental railroad and the space program (5) describe how scientific discoveries and innovations such as in aerospace, agriculture, energy, and technology have benefited individuals, businesses, and society in Texas (4) | |

Continued

8.27**Prerequisite Skills Linked to Assessed Curriculum**

- describe the impact of scientific breakthroughs and new technology in computers, pasteurization, and medical vaccines on various communities (3)
- explain how science and technology have affected the ways in which people meet basic needs (2)
- describe how technology has affected communication, transportation, and recreation (1)
- describe how technology has affected the ways families live (1)
- describe how his or her life might be different without modern technology (K)
- describe how technology helps accomplish specific tasks and meet people's needs (K)

Notable Scientists and Individuals

- identify the accomplishments of notable individuals in the fields of science and technology such as Benjamin Franklin, Eli Whitney, John Deere, Thomas Edison, Alexander Graham Bell, George Washington Carver, the Wright Brothers, and Neil Armstrong (5)
- identify famous inventors and scientists such as Gail Borden, Joseph Glidden, Michael DeBakey, and Millie Hughes-Fulford and their contributions (4)

Acquisition of Information Through a Variety of Sources

- analyze information by applying absolute and relative chronology through sequencing, categorizing, identifying cause-and-effect relationships, comparing, contrasting, finding the main idea, summarizing, making generalizations and predictions, and drawing inferences and conclusions (7)
- analyze information by sequencing, categorizing, identifying cause-and-effect relationships, comparing, contrasting, finding the main idea, summarizing, making generalizations and predictions, and drawing inferences and conclusions (6)
- analyze information by applying absolute and relative chronology through sequencing, categorizing, identifying cause-and-effect relationships, comparing, contrasting, finding the main idea, summarizing, making generalizations and predictions, and drawing inferences and conclusions (4–5)
- interpret oral, visual, and print material by sequencing, categorizing, identifying the main idea, distinguishing between fact and opinion, identifying cause and effect, comparing, and contrasting (3)
- interpret oral, visual, and print material by sequencing, categorizing, identifying the main idea, predicting, comparing, and contrasting (2)
- sequence and categorize information (K–1)
